Coding Guidelines - Leading ...

The practitioner privileged to direct moderate sedation is responsible for the safety and wellbeing of the patient, and will ensure that this policy is observed. In either elective or emergent procedures, if circumstances warrant deviation from this policy, the reason will be documented in the patient's medical record.

I. Moderate Sedation (Conscious Sedation)

Moderate sedation, also sometimes referred to as conscious sedation, is a drug-induced depression of consciousness. A patient who has been sedated in this way is relaxed and generally insensitive to pain, but remains awake and able to respond to verbal instruction.
