Arranging For Fingerstyle Guitar guitar lesson | Proguitar

A fingerstyle arrangement incorporates the melody, harmony and bass line. The first step in learning how to craft your own arrangement is studying chord melodies, harmonizing a song's melody without the bass line. Then he works on bass lines, different styles and what will suit your song best. He also tackles turnarounds, intros and endings.

Learn how to how to "Create a Fingerstyle Guitar Arrangement."

The Dark Ages Way of Guitar Arranging Most guitarists come out of a "chord" approach, which leads to picking patterns on the chord, and ultimately "jimmying" little melodies on top. For example, if you are playing an open position C chord, you sooner or later mess around with lifting your first finger on & off the B string, or using your pinky on the high E string.

...

Fingerpicking is a style that allows players to create very interesting arpeggiated patterns that result in beautiful and sometimes quite intricate textures. This makes fingerpicking one of the most rewarding techniques to learn, since it unlocks many possibilities that you can use to expand your musical vocabulary- and it's also very fun to play! If you're thinking about starting to play in this style beware- it's a little more challenging to master than it seems at first sight!
