John Deere Liquifire 440 Snow

By the time John Deere's Horicon Works in Wisconsin figured out how to really build a successful snowmobile it was too late. Those final early-1980s Deere performance sleds proved unique. The Liquifire 440 could competitively accelerate to the eighth-mile nearly as quickly as the top-of-line Ski-Doo Blizzard 9500 and Polaris Indy 600.

Yet, even with that disadvantage, on-snow testing showed that Deere's Liquifire could stay with the big guys through the 1/8-mile, but got clobbered beyond the 1/4 in straightline speed tests. In handling, Liquifire was an equal. And in fuel economy runs, the 440 twin passed gas at 25 mpg!

John Deere Liquifire | American Snowmobiler Magazine

1974: John Deere released the 295/S. 1976: The Liquidator, 340 Liquifire, 340 Cyclone, 440 Liquifire, and 440 Cyclone were released in 1976. This helped to give customers a wider variety of equipment to choose from. 1978: Due to popular interest from consumers, John Deere released some smaller snowmobile models. These were called the Spitfire ...
