In mathematics, a  
variable may be  
continuous or discrete.  
If it can take on two  
particular real values  
such that it can also  
take on all real values

Mathematics

between them (even values that are arbitrarily close together), the variable is continuous in that interval. If it can take on a value such that there is a non-infinitesimal gap on each side of it containing no values that the variable can take on, then it is discrete around that value. In some contexts a variable can be discrete in some
