Rv Cable Wiring Systems Diagram

One RV, Two Electrical Systems. Your RV has two separate electrical systems: a 12-volt DC electrical system and a 120-volt AC system. The 12-volt system is powered by a battery (or in some cases, multiple batteries), and it powers things such as the start-up on your water heater, furnace, and refrigerator, plus most of the lights in your RV's living space, your water pump, your carbon ...
