But if sharks aren't just eating machines, this raises a question: just how smart are sharks? Testing Shark Smarts Before the question of shark intelligence can be answered, we first have to know how intelligence in animals is determined. After all, scientists can't just have a conversation with a shark.

How smart are sharks?

They socialise, choose best friends and create social networks of unusual complexity. They can be trained by humans to complete simple tasks, much more quickly than rabbits or cats, for instance, and retain the knowledge for much longer. Sharks also teach each other new tricks: how to find food, identify predators and charm mates.
