Compulsive talking (or talkaholism) is talking that goes beyond the bounds of what is considered to be socially acceptable. The main factors in determining if someone is a compulsive talker are talking in a continuous manner or stopping only when the other person starts talking, and others perceiving their talking as a problem. Personality traits that have been positively linked to this ...

Bodybuilders tend to do a really good job of delineating between hip dominant and quad dominant work – sure, some of that is carried out on a hamstring curl or leg extension machine, but at least the intention is good! All that talk of training muscles, or the mind-muscle connection, pays dividends.
