The Soundscape - Inner Traditions

A soundscape is the acoustic environment as perceived by humans, in context.

The term was originally coined by Michael Southworth, and popularised by R. Murray Schafer. There is a varied history of

Bookmark File

the use of soundscape depending on discipline, ranging from urban design to wildlife ecology to computer science. An important distinction is to separate soundscape from the broader acoustic environment. The acoustic environment is the combination of all the acoustic resources, natural and artificial,

Wikipedia

Soundscape suggests exploring all of the sound in an environment in its complexity, ambivalence, meaning, and context. Basically, the soundscape concept considers the conditions and purposes of its production and perception. Consequently, it is necessary to understand that the evaluation of noise /
